

# WES6000

## TECHNICAL SPECIFICATIONS

# Q-FIN

Quality Finishing Machines

General	Unit	WES6000
Authentication		CE-approved
Weight without water	kg	495 kg
Water content	l	550 l
Water use	l/h	7 l/h
Dimensions L x B x H	mm	2070 x 1090 x 2560 mm
Fan	kW	7.5 kW
Capacity	m <sup>3</sup> /h	6000 m <sup>3</sup> /h
Extraction speed	m/s	19 m/s
Noise	dBA	72 dBA
Control of exhaust installation		Control by power switch or external machine
Standard		
		LED indicator: blue for in operation, red for filling
		Electronic floating system, automatic filling and levelling
		Fully manufactured in stainless steel
		5 collectors (for easy cleaning)
		Exhaust with silencer
		Spillway front 2"
Operation		
Motor		Ventilator 7.5 kW
Filter		Labyrinth + deflection grid
Consumption		Tap water
Water inlet connection	inch	3/4"
Air inlet connection	mm	Ø 300 mm
Electrical specifications		
Input Voltage	V	400 V (3L+N+PE)
Frequency	Hz	50 Hz
Input Current	A	25 A
Connected load	kW	12 kW
400V plug	A	400 V CEE plug / 32 A / 5 pins
